Results of the Eden's Vista Survey

September 29, 2026

Four members of the Tennessee Ornithological Society participated in a survey to the Eden's Vista property on September 29th. Weather for the trip consisted of sunny skies, winds 0-10mph, and temperatures between 48-70°F. We met at the barn on the lower end of the property at 7:45am and birded up the road to the main house and then took the ridge trail through the forest before returning to the vehicles at 11:15am. A total of 62 species were observed. Birds of note included: Loggerhead Shrike, Yellow-throated Vireo, and 14 species of warblers. Here is the list of species identified. Numbers are from eBird and may vary by observer.
