Migration Mad Lib

Do this giddy activity in a group with teams of two people. One person reads the sentence and calls out the part of speech requested below each blank and the other supplies creative answers. The key is for those who give the answers to NOT see the story until it is completed. For example, if the sentence asks for a verb, you can call out 'run', or 'fly,' or 'hop,' and your partner will write down the word in the blank. When you're done filling in all the blanks, have your recorder read your story out loud to the rest of the group for a good laugh!

It's Autumn and the _		are starting to change color and fall from				
	(plural nou					
the	Days get sho	orter, the air is		and _		,
the (plural noun)			(adjective	·)	(adjectiv	/e)
